

Welcome to npi electronic

- We build amplifiers since 1984.
- We develop and produce our instruments in Germany. These include a wide range of amplifiers, isolated stimulators, devices for precise substance application, temperature controllers (see our [Product Overview](#)).
- We provide complete setups for electrophysiology, imaging and optogenetics – *in vivo* and *in vitro*.
- We support you with design and installation.
- We supply various kinds of micromanipulators and perfusion systems.
- We provide peripheral equipment like pullers, slicers and Faraday cages.

Job Offer - PhD position in engineering - neuroscience

ITN EU-GliaPhD: 15 fully-funded 3-year PhD positions in NEUROSCIENCES –

“Training, Research and Raising of Public Awareness in Cell Biology and Pathology of Neuroglia”

Do you want to perform your PhD in the vibrant field of neurosciences?

EU-GliaPhD offers

15 exciting new PhD positions.

(to be recruited from Jan to Nov 2017)

Do you want to study the most complex organ: the brain, its cellular and molecular organization?

Do you want to know what's going wrong in the diseased brain?

Do you want to cooperate and exchange ideas with other research labs throughout Europe?

YES! (Click [here](#))
